

## Microscan MS710

**Manufacturer:** Microscan Systems, Inc.  
**Model Number:** MS710  
**Web Address:** [www.microscan.com](http://www.microscan.com)

The Microscan MS-710 offers the ultimate in adjustable, accurate, high-speed scanning. This exceptionally compact scanner is ideal for fast-moving bar code label scanning. Its spinning, 10-sided mirror projects a laser beam at a 60 degree scan angle, up to 8 inches wide. The MS-710 gives you the flexibility to scan a variety of label qualities and densities by way of its embedded firmware which allows operators to program scanning rates from 300 to 550 scan per second.

### Scanner: Commands

▶ **r()** - Turns the barcode laser on. If the barcode can not be read correctly the "NOREAD" string is returned.
